Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance:

Claims 1- 20 are allowed.

Applicant's arguments, (see page 19, lines 9-16 and 22- 28, of the remarks filed on 3/20/08. The prior art of record Bellegarda et al., (US.6,285,785 B1) directed toward a computer system for recognition of words comprised of a string of alphanumeric symbols used to form words. Bellegarda fail to disclose "receiving a vocal signal representing an object logogram, generating a logogram array having a plurality of candidate logograms, displaying the logogram array, receiving an input handwriting signal representing a portion of the object logogram, and extracting a most coincidental candidate logogram from the array of logograms corresponding to the portion". Van Kleeck (US. 6,539,113B1) discloses a system for defining a set of radicals to be used in a Kanji character handwriting recognition system and automatically creating a dictionary of the Kanji characters that are recognized by the system. Van Kleeck does not teach "receiving a vocal signal representing an object logogram, generating a logogram array having a plurality of candidate logograms, displaying the logogram array, receiving an input handwriting signal representing a portion of the object logogram, and extracting a most coincidental candidate logogram from the array of logograms corresponding to the portion", as commonly included in independent claim 1, 6, 12, 17 and 20 the prior art of record fails to teach either singularly or in combination, fails to anticipate or render the above limitations obvious.
